

We Furnish and Install **Speed Turf** Synthetic Turf

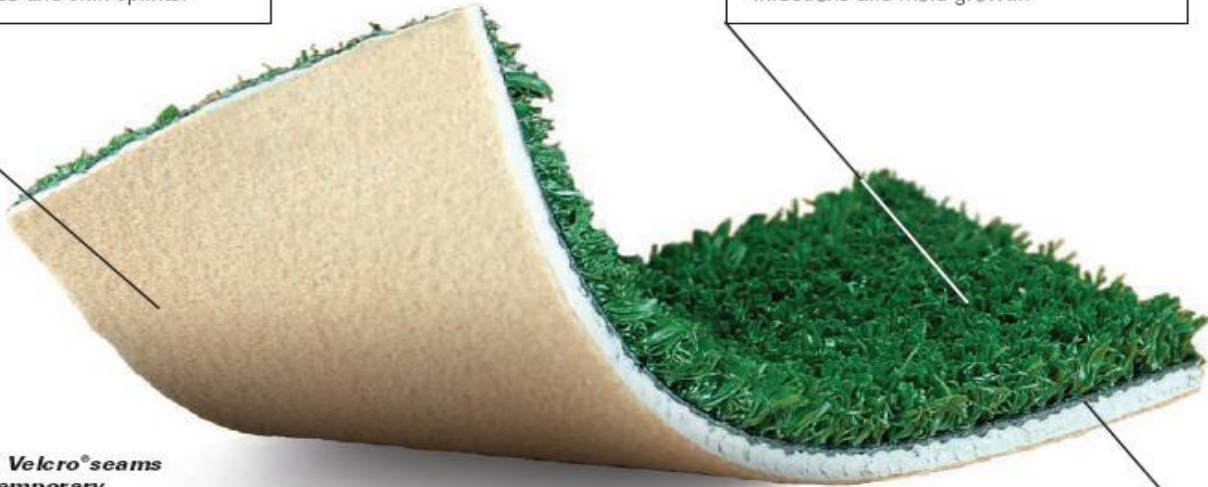

A Specialty Non-Infill Turf Designed for Agility and Cross Training

BASE LAYER

Reinforced foam base layer offers superior shock absorption and reduces muscular fatigue and shin splints.

FIBERS

The fibers are easy to clean and disinfect, dramatically reducing the risk of staph infections and mold growth.

Available with **Velcro®** seams for portable/temporary installations.

Custom Colors Available For **PowerTurf** & **SpeedTurf**.

BACKING

Composite backing secures the fibers in place providing maximum durability.

Great For High-Performance Training and Indoor Soccer.
